SILENT ART FLOOR

DESIGNED FOR  DANISH STANDARDS

Silent Art Floor

Silent Art Floor are acoustic floor panels that combine effective sound absorption with elegant design and high flexibility. The panels reduce reverberation and create pleasant acoustics in any room – without compromising on aesthetics, quality, or sustainability. Our products are designed to merge functionality with artistic elegance, making them the ideal solution for both home and office environments. By investing in a Silent Art Floor, you achieve a noticeably improved sound experience in any space while contributing to a more sustainable world.

Sustainability and thoughtful design

Silent Art Floor is developed with care for the environment. Each panel is made from 75% recycled aluminum and plastic, while the acoustic plates are OEKO-TEX® certified and produced from 68% recycled polyester – completely free from harmful chemicals. The canvases are made of 100% recycled materials and easily mounted in minimalist frames.

Create spaces with calm – and character

Silent Art Floor gives you the freedom to design with both sound and aesthetics in mind. The panels can be used in many ways:

- **As movable partitions** for flexible room division larger spaces
- **As decorative screens** in open office landscapes, reception areas, or café spaces
- **As room dividers** in the home, where you want both visual and acoustic tranquility
- **As design elements** that add color, art, and identity to your interior.

Whether you want to create a calm workspace, zones for focus, or a more harmonious atmosphere, Silent Art Floor offers an elegant and functional solution.

Healing architecture and well-being in focus

Several studies show that the interplay between sound, light, colors, and art affects both our well-being and concentration. With Silent Art Floor, you get an acoustic product that contributes to a healthier, more balanced environment – ideal for workplaces, educational institutions, and private homes alike.

Design your own expression

Choose the size, color, or motif that suits your space and style. Whether you prefer a minimalist look, an artistic statement, or a natural texture, Silent Art Floor can be customized to perfectly match your interior.

Create flexible, functional, and aesthetic spaces – with Silent Floor

Custom FIT

Individual Workplace Adjustment

Your employees are different and work differently. With a Custom FIT, we review each employee's workplace with the aim of ensuring optimal working conditions for the individual.

A Custom FIT includes an ergonomic review of the employee's body position in the working situation, with special focus on the back and neck, where many experience problems. At the same time, we make measurements and observations in relation to air, light, and sound.

During the review, we primarily solve the challenges that can be handled with a better arrangement of the existing work tools. This may involve adjusting the chair, desk height, or rear-

ranging items on the desk. In addition, we guide the employee on what they themselves can be aware of in relation to maintaining a good work posture.

After reviewing all employees' work situations, we compile a set of recommendations for the management with initiatives that will optimize the working conditions for each individual.

BONUS:

With all Custom FIT reviews, we provide a package with tools for light exercises throughout the work day.

Ergonomic Review

A review takes approximately 15-20 min. per employee. If something can be corrected on the spot, we do it together with the employee.
